“Heavy Lifting Made Easy”

PORTABLE ELECTRIC VACUUM LIFTER

GRABO PRO-LIFTER 2.0 #530

KIT INCLUDES:

GRABO Pro-Lifter comes as a complete unit, with pre-installed battery and vacuum seal.

That is not all. There are other accessories in the kit, including a multi-socket charger and a heavy duty carry bag. The complete kit is packaged in a functionally designed colorful box.

Package Contents:

- 1 GRABO Pro tool (2021 model with digital display)
- 1 multi-socket charger
- 1 battery (preinstalled on the tool)
- Operator’s manual in English
- 1 seal (preinstalled on the tool)
- 1 tough Oxford fabric carry bag

The GRABO Pro-Lifter is designed for professionals. The tool is portable and handy. Equally effective on smooth as well as coarse surfaces. Has a pumping capacity of 20 liters per minute, a best in class. Say good-bye to unreliable, and often dangerous, manual suction cups for the job. With GRABO Pro you double your work efficiency with enhanced safety.

Ergonomically designed to provide better grip and less fatigue when moving heavy objects. An effective vacuum lifter even for dusty, semi-porous or rough surfaces. Works perfectly with glass, wood, ceramic tiles, metals and other materials. The powerful vacuum pump and rechargeable battery pack are concealed within the grab handle.

GRABO Pro 2.0 Weight lifting safety parameters

Material / Direction	Glass	Ceramic tiles	Metal	Plastic	wood	Rough Slate	Rough Concrete	Dry Wall
PERPENDICULAR HOLD	375 Lbs (170 kg)	375 Lbs (170 kg)	242 Lbs (110 kg)	220 Lbs (100 kg)	220 Lbs (100 kg)	176 Lbs (80 kg)	176 Lbs (80 kg)	165 Lbs (75 kg)
PARALLEL HOLD	265 Lbs (120 kg)	265 Lbs (120 kg)	242 Lbs (110 kg)	220 Lbs (100 kg)	143 Lbs (65 kg)	176 Lbs (80 kg)	176 Lbs (80 kg)	143 Lbs (65 kg)

GRABO #520

- KIT INCLUDES: • 2 - rechargeable batterypacks
• Charger • Canvas bag • Extra foam rubber seal • Filter

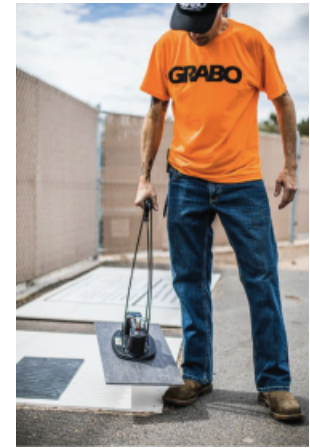

Material / Direction	Glass	Ceramic tiles	Metal	Plastic	Wood	Rough Slate	Rough Concrete	Dry Wall

PARALLEL	265 Lbs	265 Lbs	242 Lbs	220 Lbs	143 Lbs	176 Lbs	176 Lbs	143 Lbs

ERGUO S1 attachment #525

One of the objectives for making a portable heavy lifting tool was to reduce work related fatigue or injuries. Working long days in a bent down position to lift materials may have an impact on your back. To avoid this scenario, we have developed the Erguo S1 portable lifting attachment.

The ergonomically designed attachment allows the worker to operate the GRABO tool without bending. The attachment easily fits into the 4 lifting lugs next to the grab handles of the tool. Simply activate the GRABO tool to lift your material, lift and position the material, and release the tool from the material, all this is done in one swift motion without bending down. The actuator on the handle bar helps in controlling the functions. The Erguo S1 attachment is compatible with all models, except the Grabo H as that is designed for simpler and shorter duration usage.

High-capacity spare battery #523

If you are working in a remote location or need spare batteries, then just order as many from any of our suppliers.

These batteries are as powerful as the ones supplied with the tool. A full battery charge delivers up to 900 operating cycles or 1.5 hours of uninterrupted run time. The high-capacity battery can be used with all models except GRABO H.

Extra Seals #522

With continuous usages the seals wear out. When the GRABO seal finally wears out, the lifting capacity diminishes. In this case you can replace the worn seal by hand within seconds.

You can use the spare one supplied with the kit. Alternatively you can buy as many from any of the distributors or retailers. This patented high friction foam-rubber seal fits all GRABO models.
