

TAMPER MAT PRO

LANDSCAPE PRODUCTS

High-Modulus Polyethylene Thermoplastic

- Attaches to many different plate compactors with its universal size of 19" wide x 24" long x 0.25" thick. Flexible front lip.
- Matt includes 1 pair universal aluminum mounting brackets.
- Allows for a quick attachment at any point during a project without slowing down the job.
- Keeps the travel speed and compaction force you need when making that critical final pass over the pavers and poly sand.
- Lasts for a long time because it has a high abrasion resistance and low coefficient of friction.
- May be cut down to small sizes
